

115 CLUB AT HOME

Week 2: Space Week

Junk Model Space Ships

Big or small, great creative way to get rid of some of that plastic or cardboard junk.

Materials

- Junk materials
- Glue
- Sticky tape
- Paint
- String & wool
- Tin foil

Space Cookie Recipe

- 225g butter softened
- 110g caster sugar
- 275g plain flour
- Vanilla essence
- 75g white or milk chocolate chips (optional)
- Icing
- Food colouring

Heat the oven to 190C/170C fan/gas 5. Cream the butter in a large bowl with a wooden spoon until it is soft. Add the sugar and keep beating until the mixture is light and fluffy. Sift in the flour and add the optional ingredients, if you're using them. Bring the mixture together with your hands in a figure-of-eight motion until it forms a dough.

Roll the dough into walnut-sized balls and place them slightly apart from each other on a baking sheet (you don't need to butter or line it). Flatten the balls a little with the palm of your hand and bake them in the oven for around 10-12 mins until they are golden brown and slightly firm on top. Leave the cookies on a cooling rack for around 15 mins before icing.

Space Colourings

Space Colourings

Design a Space Race board game

Design a board game with a space theme. It could be who can get to the moon first, or trip to mars, or get all the parts for your space ship. There can be obstacles, you've hit an astotoid belt, move back three spaces, aliens board the ship and up grade your engine move forard two spaces; if you roll a 6 you get 2 rocket boosters for your ship etc.

Your imagination is the limit.

Some materials you may need include:

- Card or cardboard
- Old buttons or bottle lids for counters (these could be decorated to look like space ships)
- Glue, paint, sticky tape
- Felt tips
- Other materials for decoration.

Robotic Dancing

Dressing up like a robot.

Materials

- Any shiny clothes you may have
- Tin foil
- Silver paint
- Boxes
- Plastic lids
- Various plastic junk

Once you have your costume ready now try out some robotic dancing.

As the above tutorials are on You Tube please ensure that there is adult supervision.

Planet & space wax crayon art

Materials

- Paper
- Coloured pencils
- wax crayons
- Cocktail stick for scraping off black crayon

Using coloured pencils or crayons please cover whole page with lots of different colours. When you have the whole sheet covered, use the black crayon and thickly cover the same space and until you can no longer see the colour. Using the cocktail stick scrape off your design. Try and create a planet, perhaps with rings like Saturn.

If you don't have any wax crayons you can use poster paints instead. Ensure the colour paints are all dried before you put the black paint over it. When the black paint is dry you can scrape it like the crayon with the cocktail stick.

Be careful with the cocktail sticks, especially if you have pets not to let it fall on the floor. Put into bin as soon as you have finished your design.
