

## Nature and Bugs Week

As we are allowed to get out a bit more now, this is perhaps a good chance to explore nature. A walk to the woods, to the local park or the beach allows us many more adventures. Collect some pebbles or shells, some leaves, twigs or even have a bug hunt in our garden. Have fun nature explorers!

### Make a Nature Crown

#### What you need:

Card  
Sticky back tape  
The great outdoors

- Cut out a strip of card (or thick paper) large enough to go around your head.
- a strip of sticky back tape along the centre. (If you don't have sticky back tape use some pritt stick glue or just a loop of ordinary tape so that you have a sticky edge to stick on.
- Go out to your garden or when you take a walk with your family to a park, the woods or the beach pick up items of interest or perhaps items you find of different colours and stick them onto your band to make your crown. Remember not to pick rare flowers or stick poor bugs on your tape.

Cut out the 12 Bingo Cards and then the 16 individual flower cards. Use buttons, counters or squares of paper to cover flowers as they are called out from the Flower Cards. The first one to cover all their flowers calls out Bingo!

### Bug Pebbles

Collect some pebbles from the beach or use some stones that are a good shape. Paint them with your design. When the paint is dry use PVA glue to varnish them.
